Mr Greg Vincent
Development Director
Crest Nicholson Regeneration
Crest House
Pycroft Road
Chertsey
Surrey KT16 9GN

Dear Mr Vincent

The July meeting of Erith Town Forum received a presentation from Cllr. Waters and Cllr. Catterall on the Erith Western Gateway. The Forum were informed that Crest Nicholson would be taking this project forward together with Orbit Housing Association and that detailed plans would be drawn up and further consultation would take place

The Erith community are extremely anxious to be kept fully informed and work with the developers on the plans for this huge development. In the past when projects of this kind have been undertaken we have been fortunate to have representatives of the companies concerned, attending our meetings to make sure that we get accurate information and thus avoid unhelpful rumours that can so easily circulate. A representative from Morrisons attended our meetings at the time the superstore was being developed as also did Careys when the Riverside Shopping Centre was being built. In fact Mr Chris Betts of Frogmore Real Estates, the owners of the shopping centre, still attends our meetings and financially supports the Forum newsletter.

We would therefore be very pleased to co-opt a representative from your organisation on to the Erith Town Forum as allowed in our constitution. I do hope you will agree to this suggestion and very much look forward to your reply. I enclose a copy of our constitution for your information.

Yours sincerely

Doreen Ives
Chair
